

Dear Ralph Hoeking...

sorry for the long delay. I am ^{sending} enclosing more propaganda material for your boss. ^{in other envelope}

I am leaving on the 22 of July. and will come back on the 1st of October. I will be working for the computer-generated color TV program at Bell Lab, Murray Hill. N.J. from the third of October to spring of 1969.

Best time to work at Binghamton would be February 89 but it can be worked out either January or March. Condition is, as we agreed at hotel..... ^{read rep set}

1000 dollar for the one month residence
1000 dollars for the equipments, I bring and which I leave at your school.

I will work first two weeks with small number of collaborator, you/ and or your assistants, and next two weeks I will show the products to the wider circle... I shoed them to Stony Brook students, and reaction was very positive. three teachers conducted their classes---voluntarily--- at my show (one from applied mathematics...two from the English departments... ~~xxxx~~ also the showing to the neighbo-rhood grammar school kids were interesting...

and one on Staten Island.
Three other cases of poisoning were reported in New Jersey, three on Long Island and one on Staten Island.
There are no antidotes for the most dangerous type of poisonous mushrooms, Harry Raybin, technical director of the City Poison Control Center, emphasized.
"Prevention of mushroom poisoning is easy," he said. "Do not gather and eat them under any circumstances."
